Flavours

Gum & Mint

A beautifully blended flavour with minty aroma, the menthol feel of it plays all over your taste buds, leaving you with a fresh mint taste.

Love 66

A tropical mix of passion fruit, honeydew melon, watermelon and mint, refreshing and sweet at the same time.

Lady Killer

Fragrant melon, juicy sweet mango with a slope shade of forest berries and soft mint. Quite popular.

Pan Raas

Spicy betel leaf and everything nice, freshens your mouth with its icy cool exotic taste.

Blue Mix

A blend of various fruity flavours with hints of berries mostly.

Mint Cream

Exactly like mint ice cream, rich and creamy as you inhale with a pleasant hint of minty coolness as you exhale, tasty and not overwhelming at all.

Ice Watermelon

An amazing aroma of refreshing watermelon, a party in the mouth. A perfect balance of fruity and icy.

We hope you enjoy

Thank you.
